

Quick Start Guide [Net ID: mxb166430]

- Once the application has been launched. You will see several tabs on the screen.
- Click on different tabs in order to access different forms that will enable you to perform different functions
- Please enter values as instructed
- Avoid leaving any field blank
- Submitting any form in any tab will take you to a new page.
- The new page shall have a link back to the home page
- You may also click the back button in your browser for accessing the home page. This will save the values that you wrote in the textfields in the home page.

The screenshots on the next page show that by clicking different tabs, you shall be able to access various forms for letting you perform various functions:
